**eFlo 2.0 ELECTRONIC FLOW METER**

*eFlo 2.0* is an electronic flow measurement instrument used to display and control the flow of gases and liquids. With simple compatibility with existing controls, tracking and monitoring gas flows has never been easier. Designed for use in the harshest industrial environments, *eFlo* allows for easy replacement of manual flow meters and seamlessly integrates into existing control systems.

**Features:**
- Integrated communication via Modbus over RS485 (RTU) and Ethernet (TCP)
- Pressure and temperature compensation for precise flow calculation
- Flow Meter View software and mobile interface for configuration
- Available with electronic valve, with or without control
- Analog control and feedback for data acquisition
- Direct and remote setpoint control
- Built-in high/low flow alarms
- Flow totalizing

**Benefits:**
- Compact footprint
- NIST-traceable calibration
- Onboard datalogging (LCD)
- Precision flow measurement
- USB and Bluetooth configuration tools
- Mobile-friendly and web-based remote configuration
- Digital display: easy-to-use touch pad / touch screen
- SCADA integration: Flow Rate, Totalized Flow, Setpoint
- Flow calibration can be certified in use for CQI-9 requirements

**Common Gases:**
- Natural Gas
- Propane
- Air
- Hydrogen
- Dissociated Ammonia
- Exothermic Gas
- Endothermic Gas
- Nitrogen
- Other Industrial Gases
- Methane
The eFlo Line:

**eFlo 2.0**
- LCD or Touchpad
- Compact footprint
- Onboard datalogging (LCD)
- Bluetooth / mobile connectivity
- Up to 10 psi inlet pressure
- 1 ¼” NPT
- Optional manual valve

**eFlo-L and eFlo-H**
- Specifically designed for high pressure gas and liquid flow applications
- Direct and remote setpoint
- Digital LED display
- Up to 100 psi inlet pressure
- ½” NPT

**eFlo Totalizer**
- High / low alarms
- Real time and totalized flow
- Precision flow measurement
- RS485 / ethernet communication
- Up to 10 psi inlet pressure
- ½” to 2” NPT

**eFlo Gauge Meter**
- Optional manual valve
- Easy to read flow indicator
- Horizontal or vertical mounting
- No moving parts: maintenance-free
- Up to 90 psi inlet pressure
- 1¾” or 2” NPT
